**Virkon™ S**

DISINFECTANT & VIRUCIDE

**Does the disinfectant you use offer all this?**

\* Not approved in CA for use against the noted pathogens.

Please consult the Virkon™ S product container label for a comprehensive list of organisms & directions for use.

1:600 is applicable for disinfection limited to specific and known disease PEDv, PRRS & Porcine Rotavirus.

<sup>1</sup> African Swine Fever efficacy was tested with 1% soil load and 342 ppm hard water.

**virkon.us**

Virkon™ S is a science-based biocidal technology for animal health disinfection, which has been specifically engineered to provide an effective†, flexible and convenient, modern formulated disinfectant solution for commercial livestock producers, veterinary hospitals and farmers.

The broad spectrum efficacy of Virkon™ S has been proven effective against:

- 63 strains of virus† • 33 strains of bacteria • 5 strains of fungi

Virkon™ S is versatile and can be used for non-porous hard surfaces, agricultural production equipment, vehicles, wheels, boot disinfection and day-to-day farm disinfection.

## Virkon™ S: Emergency Disease Control For Animal Health

- Proven efficacy against **African Swine Fever Virus<sup>1\*</sup>, Foot and Mouth Disease, PEDv<sup>\*</sup>, PRRS<sup>\*</sup> & Porcine Rotavirus<sup>\*</sup>.**

Virkon™ S is recognized worldwide as a leading disinfectant of choice for the emergency disease control of African Swine Fever Virus<sup>1\*</sup>.

African Swine Fever Virus (ASFv)<sup>1\*</sup> can be considered one of the most feared epidemic diseases of pig production, the others being Swine Vesicular Disease (SVD<sup>\*</sup>), Porcine Epidemic Diarrhea virus (PEDv<sup>\*</sup>) and Foot and Mouth Disease (FMD).

When considering an effective biosecurity program, it is essential to bear in mind that viruses can survive for considerable lengths of time outside of the host and pigs can be infected through a number of vectors:

- Contact with other pigs • Contact with mechanical vectors such as vehicles and equipment • Contact with personnel

## Virkon™ S virucidal efficacy data against swine disease-causing organisms

Swine Disease	Virus Family
Adenovirus Pneumonia*	Adenoviridae
African Swine Fever Virus <sup>1*</sup>	Iridoviridae
Foot and Mouth Disease Virus	Picornaviridae
Hog Cholera Virus*	Flaviviridae
PCV2 Virus (PMWS)*	Circoviridae
Porcine Epidemic Diarrhea Virus (PEDv)*	Coronaviridae
Porcine Parvovirus*	Parvoviridae
Porcine Reproductive and Respiratory Syndrome Virus (PRRS)*	Arteriviridae
Porcine Rotavirus*	Reoviridae
Pseudorabies Virus (Aujeszky's Disease)*	Herpesviridae
Swine Influenza Virus*	Orthomyxoviridae
Swine Vesicular Disease Virus*	Picornaviridae
Transmissible Gastroenteritis Virus (TGE) <sup>2*</sup>	Coronaviridae
Vesicular Stomatitis Virus*	Rhabdoviridae

\* Not approved for use in California against the noted pathogens.

† Consult the Virkon™ S product container label for the comprehensive list of bacteria, viruses and fungi.
